

MENTOR. PARTNER. LEAD.

The Women's Edge propels women leaders to achieve professional and personal success and deliver positive impact within their businesses and communities.

The Women's Edge is a nonprofit organization devoted to advancing businesswomen in leadership positions. We are ambitious, success-oriented women committed to growing our respective organizations and to supporting each other as we accomplish our individual goals.

Our membership includes CEOs, senior corporate executives, entrepreneurs, executive directors of nonprofits, solo practitioners, and the rising generation of women leaders who are committed to building successful businesses, organizations and careers. Members come from a range of industries and from a variety of backgrounds. We run large companies, we lead small companies, we manage nonprofits, we work as sole proprietors. We are a community of women offering a collaborative brain trust for fellow members and a platform for each of us to achieve our goals.
